2. On 25 September 1952 you indicated to [REDACTED] that under the original concept of ceilings, it was intended to include all SE's and SA's regardless of whether they were assigned to a regular or project T/O. You were advised on that date that the past status reports had excluded project personnel from ceiling controls. You will observe that as of 30 September 1952, [REDACTED] SE's and SA's were employed under project T/O's. [REDACTED] additional individuals are in process for employment under a project.

3. Unless we are advised to the contrary, we expect to hereafter reflect project SE's and SA's in our monthly status reports against authorized ceilings for each Office.

[REDACTED]
Assistant Director (Personnel)
